FRIDAY, NOV. 26, 1927

In another part of this issue is a card
 from Mr. D. B. Anderson, announcing
 his retirement from the jewelry business,
 and introducing his successor, Mr.
 H. H. Webb, to the Marietta public.

The retirement of Mr. Anderson from
 the line of Marietta's business men
 marks the close of a long and honorable
 business career. Since 1817 Marietta
 has had a house, "D. B. Anderson" in
 the jewelry business, and the name
 stood for integrity. The father of the
 present Mr. Anderson was D. B. Anderson,
 and he first began business in 1817
 in a building, the ground of which is
 now a portion of the spot on which is
 the Bellevue Hotel. He moved to the
 present corner about 1850, and remained
 in business there until 1854 when death
 ensued, and the business was continued
 by the son, David. Mr. Anderson the
 first made many of the articles of his
 sale by hand, beating out silver spoons
 from coin, and he was a thorough
 mechanic. The son, of course, did not
 do business in that necessarily pioneer
 fashion, but his reputation, like that of
 his father's, was of the very best, and
 no man will gainsay it.

In 1883 the present building was
 erected, and it has since been the scene
 of the conduct of a successful business.

Probably no jewelry firm in the mid-
 dle west can antedate the starting of
 the house "D. B. Anderson" and the
 continuance of business under one
 name.

New Tunnel Completed.

The improvement on the Pittsburgh
 Division of the Baltimore and Ohio
 Railroad, 22 miles west of Cumber-
 land at Falls Cut, will be completed by
 December 1st and trains will begin
 running over it within ten days there-
 after. Falls Cut is a cutting through a
 spur of the mountain and is about
 60 feet in depth and has continually
 given trouble by rock sliding down on
 the track. It has had to be braced
 with heavy timber every few feet for
 its entire length, some 300 feet, and
 requiring constant care and watch-
 fulness, was, therefore, very expensive
 to keep up.

In order to eliminate this cut it was
 necessary to build one mile of new
 roadway which involved the construction
 of a double track tunnel 530 feet
 in length and three bridges.

By this change the road was straight-
 ened considerably taking out some
 sharp curvature and introducing curves
 of a longer radii. The improvement is
 on what is known as the eastern slope
 of the Alleghenies and the grade is
 about 84 feet to the mile. The tunnel
 and bridges were constructed with the
 view of double tracking the entire
 Pittsburgh Division sometime in the
 future.

Help the Art Loan.

Work for the Art Loan, to be held
 next week, at the residence of E. R.
 Alderman, Esq., progresses surprisingly
 and satisfactorily. A most attractive
 exhibition is assured. Besides the
 chief collection of miscellaneous pic-
 tures in oil, water colors, engraving
 and etching, several rooms will be
 given up to the display of special sub-
 jects; one, to pieces representing rest
 and night; one, to humor and comedy;
 one to winter; while in the Library
 will be found the faces of musicians
 and of authors with scenes from their
 works. In other rooms will be dis-
 played a bewildering array of exquisite
 china and art needle work.

Aside from the charitable causes to
 which the proceeds are to be given,
 this exhibition will deserve the patron-
 age of all who enjoy the beauties of art.
 It will open next Tuesday evening and
 remain open through the rest of the
 week; speak a good word for it to your
 out-of-town friends and advertise it
 wherever you go. Above all, see that
 you do not miss attending yourself.

W. H., Press Committee.

Cigarette Dealers.
 W. D. Guilbert, state auditor, has
 decided that dealers in tobacco and
 cigars who sell mixtures of tobacco and
 other stuff for use in making cigar-
 rettes, and sell or give with it, the
 paper with which to wrap the cigar-
 rettes, are dealers in cigarettes, within
 the meaning of the law, and must pay
 the tax which is \$15 per annum for re-
 tail dealers. The matter has been in
 dispute among the county auditors for
 some time and was taken to the
 state auditor for decision.

To Friends and Patrons.

Owing to continued ill health, I have
 disposed of my business—stock and
 good will, to Mr. H. H. Webb. Mr.
 Webb comes with the highest recom-
 mendations as to character and ability,
 and will continue the business along
 the same lines as heretofore followed.
 I commend him to your patronage and
 esteem.

Marietta Defeats Miami University On
 Thanksgiving Day.

A large and enthusiastic crowd of
 football lovers assembled at Athletic
 Park Thursday afternoon to witness
 the closing game of the season between
 the teams of Marietta College and
 Miami University. They were not dis-
 appointed, and saw one of the closest,
 cleanest and most scientific games yet
 played here.

The two teams lined up promptly
 at two o'clock in an unusual occurrence,
 and as a result the game was finished
 before dark.

Miami kicked off, Marietta taking
 the ball and advancing it to the vis-
 itor's five yard line, where it was lost
 on a fumble. During the entire first
 half the contest waged between the
 center of the field and Miami's goal,
 the offensive work of both teams being
 especially brilliant. Three times Mari-
 etta planted the pigskin on Miami's
 five yard line, but were unable to score
 a touchdown. The half closed with
 neither eleven having any apparent
 advantage.

When the second half began it was
 seen that it would be a fierce battle
 than the first and the ball passed back
 and forth on the field with the varying
 fortunes of the contestants. Marietta
 finally took a splendid spurt and by
 steady rapid gains went down to their
 opponent's goal and Thorvald went over
 the line for the first and only touch-
 down. Bovie kicked goal easily, mak-
 ing the score 6 to 0. Miami made a
 desperate effort to tie the score, but
 were unequal to the task, and when
 the game ceased the ball was in Mari-
 etta's possession in Miami territory.

Capt. Jones, of the Marietta's played
 a plucky game, as did every man of the
 ten other members of the team. The
 game was replete with brilliant runs,
 rushes and tackles and science and not
 brute strength was the order of play.
 The Miami boys showed themselves
 to be good stuff and the thanks of the
 Marietta public are due them for mak-
 ing possible so good a contest.

The line-up was as follows:

REBEL BULLETS

Sought the Palace in Havana—They Came
 From Casa Blanca Across the Entrance to
 the Harbor.

NEW YORK, Nov. 25.—On Sunday
 morning, for the first time in the his-
 tory of the Cuban war, rebel bullets
 sought the palace in Havana, says a
 dispatch to the Herald from Havana.
 The shots came from Casa Blanca, 600
 yards across the entrance to the
 harbor, and while nobody was hurt,
 the palace, with its electric
 lights, was a shining mark and must
 have been hit. The Spanish authorities
 attempt to make light of the affair,
 but at the same time a reporter for La
 Lucha who wrote up and attempted to
 publish the facts in the case was ar-
 rested and is still incarcerated.

The attack on Casa Blanca was made
 by Brig. Gen. Rafael Decardenas and
 50 rebels. They entered the town
 shortly before midnight on horseback,
 and at the end of four hours each man
 led out of town a horse with one
 extra he had appropriated, laden with
 clothing, provisions, silver plate and
 considerable money. Before they left
 they fired two volleys across the nar-
 row harbor entrance at the palace,
 then coolly retired to a friend's house
 inside the Spanish lines and took sup-
 per, previously ordered. All this was
 under the guns of Cubana and Morro.

SPECTACLES. The old custom of pur-
 chasing spectacles at a
 Jewellery Store, Toy Shop, or from a Fakir or
 from a self-styled Optician, by putting on
 pair after pair of Ready Hand-me-Downs,
 until one is found, guessed at to be suitable,
 is about as rational and safe as it would be
 in case of sickness for the invalid to try the
 contents of the various bottles on the shelf
 of the drugist, and select for a remedy the
 medicine supposed to be the best.

Money is thrown away and hundreds of Eyes
 and Health are ruined yearly in paying for and
 wearing glasses furnished by ignorant
 vendors or recommended by self-styled Op-
 ticians. Have your eyes scientifically ex-
 amined by a professional and experienced
 oculist, as you would have your other ail-
 ments diagnosed and treated by the most
 skillful and best physicians.

It is a fact that but one person out of five-
 teen has both eyes, in all respects, exactly
 alike, and that seven out of ten have one
 eye better than the other, and although the
 two eyes seem to their owner and to their
 friends all right, yet one eye may be "near-
 sighted" and the other far sighted, "one
 may be over-sighted and the other under-
 sighted. These differences may be the result
 of some inequality in the cornea or lens, or
 nerve or muscle power; from a strained
 cataract or from some constitutional trouble
 from causes which no mere spectacle dealer
 or optician can detect or decide, and which
 only the experienced and professional oculist
 can understand and provide the proper
 remedy. The eye must be scientifically ex-
 amined, the right lenses especially made
 for each eye and adjusted in frames exactly
 adapted to each peculiarity of vision.

DR. BARKER'S examination is painless.
 No medicine is used to dilate the pupil, and
 but a short time is required to make the
 prescription. We then grind the lenses.
 We give a written guarantee with
 every pair. The cost depends on material
 used. New lenses reset in your old frames,
 or exchanged. Price very moderate.

No matter what the ailment, no matter how
 many physicians have treated you and failed,
 don't be discouraged, make one more trial.
